

# Birring

**BIRRING NDE CENTER** believes that education and training lay the foundation of any professional's work quality. This also includes NDT technicians who play a key role in construction and maintenance as their findings are used by engineers to make major repair/replace decisions.

**Birring NDE Center, Inc.** is an industry leader in nondestructive testing. We are a training school which provides hands-on training in all methods to prepare you for this growing field. Students can finish basic NDT training in 3 to 6 weeks and take additional classes as needed.
